## **BENTLEY S2 L.W.B**

The Bentley S Series is the sister car to the Rolls Royce Silver Cloud Series. Bentley made over 2000 of these cars of which only 57 were made into the Long Wheel Base Version. This superb example of this car is finished in Light Ivory over Black and can carry up to 4 passengers in pure luxury and style. It can be used along side the Rolls Royce Phantom V or the Daimler Limousine in black and ivory very well.
